Tutoring

Writing Coaches
- Receive writing feedback on class projects and personal statements
- Manage writing time
- Identify and repair problems with focus, development, organization, clarity, and grammar
- Practice effective proofreading strategies
- Avoid plagiarism

Math & Science Tutors
- Math and science content-specific tutoring
- Test preparation and study skills
- Calculator lending program
- Individual or group appointments

Academic Coaches
- Develop and apply effective academic strategies
- Improve college reading skills
- Learn new study strategies
- Organize and manage time

Course-Embedded Peer Educators

Supportive Seminars and Supplemental Instruction
- Offers peer facilitated study sessions providing students with additional support for historically-difficult courses
- Foster learning to improve students’ grades and retention in the course
- Develop transferable academic skills students can utilize in other courses

Peer Mentors

First-Year Only (FYO) classroom communities include peer mentors who are there to support students during the transition to college by
- sharing their experience as UNI students
- facilitating classroom activities
- helping students get connected with campus organizations and resources
- providing academic assistance to support student success during their first year on campus

Workshops

One-time workshops are offered throughout the academic year on topics including:
- Time Management
- Study Strategies
- Note-Taking Strategies
- Test-taking Strategies
- Goal Setting
- Study Strategies for Mathematics
- Study Strategies for Science
- Report Writing
- Avoiding Plagiarism
- And many more!
